CHECK-INS:
The net will now take open check-ins by area. Please give your call sign phonetically. To minimize doubling, you can say "This is.." then briefly drop your transmission [*drop transmission for a moment*] to check for others, before re-keying and giving your call sign.

First are there any stations that need an early out?

[For any early out stations, call for traffic for them then let them know they are free to secure at any time and we will call on them first during social check-in]

Net control will now take check-ins from the Springfield area. Any Springfield area check-ins to the EARS club net, come now.
